Counselling volunteers will help to develop our growing mental health support service for patients, families and carers affected by Complex Regional Pain Syndrome (CRPS). Depending on your qualifications, skills and experience, you will provide counselling support or specialist services, such as general talking therapies, Cognitive Behavioural Therapy (CBT) or Eye Movement Desensitization and Reprocessing (EMDR) for CRPS patients, their loved ones and carers. The service currently offers specialist support to anyone over the age of 5 who is affected by CRPS.
