

Exploring Individuals with Complex Regional Pain Syndromes' (CRPS) Health Literacy and Experiences with Opioid Information in Opioid Decision Making

- UK residents
- Aged over 18
- Fluent in English
- Have a diagnosis of CRPS
- Accessed opioid information since April 2021

You would take part in one interview, lasting up to one hour. This research will explore your experiences regarding opioid information and decision making around opioids, for your CRPS.

You will also be asked a series of questions to explore your health literacy, which is an important component in health outcomes and decision making.

If you are interested, and would like more information, please email k.j.knowles@2024.ljmu.ac.uk, or scan the QR code.

There is no obligation to take part, your participation will be entirely voluntary!
